Roundtable and moderated discussion: "The value chain: Producing Sustainable Aviation Fuel in Europe"

Moderator

**Robert MISSEN, Head of Transport Research and Innovation –
DG MOVE**

Originally from Oldham, England Robert is a career civil servant with the European Commission in Brussels, having joined in 1986. For over twenty years he has worked in the Directorate General responsible for Transport, with legislative experience in land, air and maritime sectors. Following the events of 11 September 2001 he worked in transport security, originally in aviation security where he was directly involved in the development and adoption of all E.U. legislation in that field. In September 2010 he was promoted to the post of Head of Unit responsible for Maritime and Land Transport Security. In October 2016, as part of an internal reorganisation of DG MOVE, Robert took over as Head of Unit for transport research and innovation

**Henrik ERAMETSA, Head of Aviation Regulation,
NESTE**

Henrik Erametsa (M.Sc. in Mechanical Engineering), Head of Aviation Regulation, Neste, based in Espoo Finland. From 2014-16 he was Head of US Federal Affairs, based in Washington DC. Henrik is Co-Chair of the EU Biofuels FlightPath 2020 initiative.

Angelica HULL, CEO, SWEDISH BIOFUELS

The professor Angelica Hull wanted to become a doctor, but became a chemistry professor and entrepreneur. Now, Swedish-Russian Angelica Hull has something that all the world's airlines want for meeting their enormous environmental challenges - an innovative technology for producing Sustainable Aviation Fuel -

**Stéphane THION, Head of Biogas and Sustainable
Aviation and Marine Biofuels, TOTAL**

Stéphane Thion is the Head of Biogas and Sustainable Aviation and Marine Fuels from Total. Total launched earlier this year La Mède biorefinery, the first world-class facility of its type in France and one of the largest in Europe, aims to meet the growing demand for biofuels.

**Bruno MILLER, Managing Director – Fuels, FULCRUM
BIOENERGY**

Bruno leads Fulcrum's fuel marketing and delivery activities, including identifying and securing fuel offtake and strategic investment transactions with companies in the aviation and oil industries. Prior to joining Fulcrum, Bruno was a Principal for Metron Aviation where he worked with global airlines, the National Academy of Sciences, the FAA and NASA.
