Roundtable and moderated discussion: "The future of Sustainable Aviation Fuel in Europe"

Moderator

Darrin MORGAN, Chair of ART Fuel Forum Aviation Group

Darrin Morgan serves as Head of Growth and Investment for SkyNRG – helping the Company expand in sustainable, financially secured manner.

He joined SkyNRG in 2018 from the Boeing Company, where he was one of the primary aviation industry architects of the emerging SAF technology, notably the HEFA certification.

Flor DIAZ PULIDO, Head of Unit Aviation Policy – DG MOVE

Flor Diaz Pulido was nominated head of unit in aviation policy at DG Move in June of this year. She joined the Galileo department in 2017 as deputy head of unit.

César VELARDE, Co-rapporteur ICAO CAEP Fuel Task Group

César Velarde is an Aviation and Environment Independent Consultant, currently supporting the Spanish Air Safety Agency (AESA) through the State Company SENASA. Nominated by Spain, he is the co-rapporteur of the ICAO CAEP Fuels Task Group.

Robert MAURI, CAEP Member, FRANCE

Robert Mauri is the representative from France in the CAEP – Committee on Aviation Environmental Protection- from ICAO. The CAEP assists the Council in formulating new policies and adopting new Standards and Recommended Practices (SARPs) related to aviation environmental impact. Previously, Robert worked for the French embassy in Madrid, Spain.

Robert BOYD, Manager Environment – Alternative Fuels IATA

Robert Boyd holds the position of Manager Environment – Alternative Fuels, within the Environment department at IATA. His focus on alternative jet fuel is aimed to increase the global deployment while addressing the challenges.

Stig HVOSLEF, Coordinator Climate and Environment, Akershus, Norway

Stif Hvoslef is the scientific coordinator for Climate and Environment of the city of Akershus, in Norway. He presented a joint strategy for hydrogen-based transport for the Oslo region, with the aim of getting 10,000 fuel cell cars on the road by 2025
